

Launch, Grow and Optimize Your Federal Firearms License.

Your Challenge: Manage changes to an already complex system of Federal and State regulations, enhance inventory accuracy and availability, while optimizing your business with modern technology.

The Bottom Line: The Orchid Advisors' FFL Lifecycle Program is the first of its kind to service the comprehensive business, technology and compliance needs of today's Firearm Dealers, Pawn Shops, Distributors and Manufacturers.

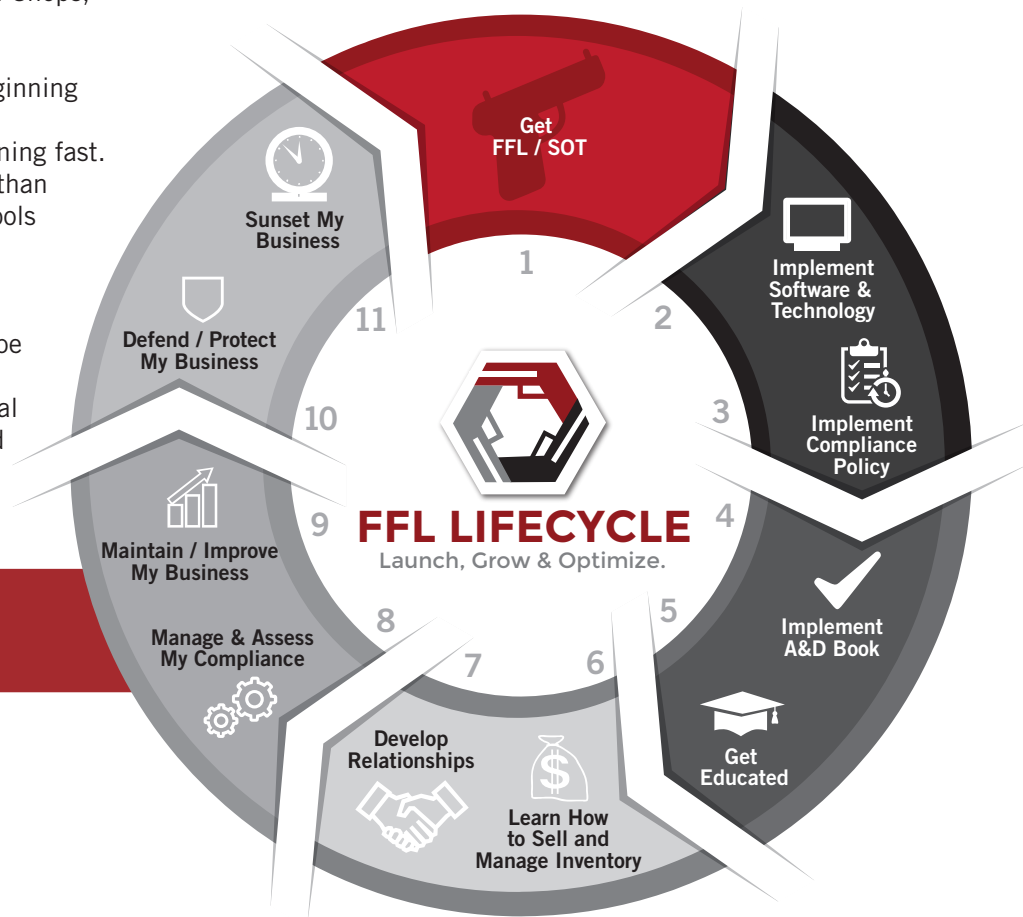

Orchid Advisors offers six packages beginning with a simple and low-expense launch service designed to get you up and running fast. Starting around \$50 (which is far less than alternative services), we give you key tools to launch, grow and optimize your firearms business.

Larger established entities can subscribe to a recurring growth and maintenance package designed to address operational efficiency, sustainable compliance, and scalable technology needs.
